

BHOVANEN MURDAY

Level 3 Computer Science Student

@ bhovanen31pro@gmail.com +230 5925 8597 Goodlands, Mauritius jevin31.github.io bhovanen-murday

ABOUT

Final-year Computer Science student specializing in mobile and full-stack software development, with hands-on experience gained through internships, hackathons, and open-source projects. Strong foundation in software engineering and problem-solving, along with proficiency in modern development frameworks, demonstrating the ability to design and implement scalable, real-world solutions. Highly motivated and adaptable, committed to continuous learning and professional growth. Eager to contribute to impactful projects that drive innovation and enhance user experiences.

EXPERIENCE

Front End Developer

Freelance

October 2025 – Present

- Developed and maintained web applications using Angular and .NET
- Collaborated with clients to gather requirements and deliver tailored software solutions.
- Conducted testing and debugging to ensure functionality and performance of applications.
- Utilized version control systems like Git for code management and collaboration.

Software Developer Intern

Astek Mauritius

October 2024 – December 2024

- Developed a parking management system (ASPARK) using Angular, Java and Spring Boot.
- Conducted thorough assessments of REST APIs to ensure functionality and reliability using Postman.
- Engaged in collaborative efforts within agile development team to enhance software scalability and maintainability.

PROJECTS

Polaris - Your AI Travel Companion

January 2025 – April 2025

- Winner of the UOM AppCup 2025.
- An AI-powered navigation and travel companion featuring smart route guidance, gamification, and accessibility-focused design to enhance user exploration and engagement.

DermAI - Your Skin Companion

June 2024 – August 2024

- An AI-based healthcare app using image classification for preliminary skin condition analysis, with integrated telemedicine, chatbot support, and secure video consultations.

EDUCATION

B.Sc. Computer Science

University of Mauritius

June 2023 – Expected June 2026

ACHIEVEMENTS

- Secured 1st place at the UOM AppCup 2025

SKILLS

Problem Solving Communication
Teamwork Linux Git

C/C++ Java PHP HTML CSS
SQL JavaScript jQuery React
Kotlin Python Angular
Spring Boot .NET
